

## [CIVL 315 Parody] A Note from "NEARCreek Industries"

From: Max Flowe <max.flowe@nearcreek.ca>

---

Dear CIVL 315 students,

It is I, Max Flowe, of NearCREEK Industries Ltd (well, the ghost anyway since I supposedly passed away <https://nearcreek.ca>).

I wanted to take a moment to thank you all for your hard work on the lab reports and the thoughtful recommendations you submitted. We were impressed by the depth of analysis and innovative thinking you brought to your experiments.

In particular, we expect your Seeville pump design to yield over \$2.5 billion dollars of profit to our firm. In appreciation of our thanks for your efforts in the laboratory, we would like to offer you gift vouchers worth \$2 for every megalitre of lab fluids you wish to buy (minimum \$200,000 purchase).

Your insights are incredibly valuable to us, and we will be sure to consider your suggestions as we move forward. We truly appreciate the time and effort you put into our projects. In fact, our firm is looking for 24 talented individuals to join our team.

Every year, we strive to recruit engineering students who wish to pursue a career in competitive problem solving and survivorship skills. At UBC alone, we choose two tributes from each of the 12 residences of UBC to represent NEARCreek Industries Ltd at the International Fluid Games. This event showcases bright and upcoming engineers fighting to be crowned Victor of all Engineers™ (VOOAE™) through a show of strength and wit. Disclaimer: our positions are unpaid internships. By applying, you waive your legal rights to sue us for your death.

Thanks again for your professionalism and dedication. We wish you continued success in your studies and look forward to future opportunities to collaborate.

Best regards,  
Max Flowe  
NEARCreek Industries Ltd.

**NEARCreek**  
INDUSTRIES LTD

This email, the NearCREEK Industries Ltd. website, and all referenced individuals, programs, profits, vouchers, internships, and events are part of a student-made parody for CIVL 315.

NearCREEK Industries Ltd., Max Flowe (alive, deceased, or ghost), the International Fluid Games, and the Victor of all Engineers™ are entirely fictional. This message is intended for humor only and does not represent a real company, job offer, recruitment effort, or UBC-affiliated activity.

No real internships, payments, legal waivers, lawsuits, or survivorship trials exist. Please do not apply, sue, or fight anyone.
